
Startup Failure Rate

Primary Reason:
"NO MARKET NEED"

SOURCE: CB INSIGHTS

WHO SUFFERS?

- Pre-seed Founders
- Product Managers
- VC Portfolio Support

THE MARKET PROBLEM

Founders are building blind.

Real customer discovery is the single most skipped step in the startup journey. Why? Because the current process is broken.

It's Too Slow

Finding 50 qualified leads takes weeks. Scheduling and interviewing takes months. Speed is life, and this is death.

It's Expensive & Biased

Consultants cost $10k+. Doing it yourself results in "Mom Test" failures—hearing what you want to hear.

So, We Skip It

Most founders just build features. The result? 6-12 months burned building products nobody wants.

MARKET OPPORTUNITY: $2B+ Research Tools | $500M+ Validation

THE SOLUTION

Autonomous Customer Discovery

Stop manually scheduling interviews. Configure the run, go to sleep, and wake up to answers.

1

Configure (5 mins)

Define your product concept, target audience segments, and key learning goals via a simple form.

`Input: "Renters in Berlin, €2k income"`

2

Run Overnight

Autonomous agents generate 50+ diverse personas and conduct parallel, adaptive deep-dive interviews.

`Action: 50 concurrent simulated chats`

3

Morning Report

Wake up to a structured dashboard: Demand Scores, Willingness-to-Pay curves, and Objection clusters.

`Output: Interactive Intelligence Dashboard`

WHY NIGHTSHIFT IS 10X BETTER

TIME TO INSIGHT	SAMPLE SIZE	COST EFFICIENCY	DATA QUALITY
8 Hours	**50+ People**	**$50 / Run**	**Structured**
~~vs. 4-6 Weeks~~	~~vs. 5-10 Interviews~~	~~vs. $5,000+ Consultants~~	~~vs. Messy Notes~~

BUSINESS MODEL

How We Make Money

TARGET CUSTOMER

Pre-seed Founders | Product Managers | Startup Studios

PRICING TIERS

Starter Pay-as-you-go	**$29** per run
Pro ★ 5 runs/mo + Priority	**$99** / month
Team 50 runs + API Access	**$499** / month

UNIT ECONOMICS (STARTER)

$25
Gross Profit / Run

86%
Margin

Revenue: $29

Cost (LLM): ~$4

GO-TO-MARKET

Acquiring the First 10 Customers

Direct Outreach

DM 50 Founders in current YC/Antler batches offering a free "overnight validation" run.

Accelerator Partnerships

Provide Nightshift as a standard perk for portfolio companies (B2B2C model).

Public "Tear-downs"

Post "We validated [Famous Idea] overnight" threads on X/LinkedIn to drive viral traffic.

⚡ Distribution Advantage

The Viral Report Loop: The output isn't a PDF, it's a shared URL. Founders share their Nightshift dashboards with co-founders and investors.

Insight: Investors will start asking founders: *"Can you send me your Nightshift link?"* becoming the standard for due diligence.

Why This Team & Why Now

THE BUILDERS

AI Engineer
Agent Orchestration & Backend Logic

Full Stack
High-Fidelity Viz & Dashboard UX

Product Lead
Research Methodology & GTM Strategy

DOGFOODING RESULTS

We ran Nightshift on itself last night. Here is the autonomous report:

DEMAND SIGNAL
76% Strong Buy

WTP SWEET SPOT
€9.99 / month

TOP OBJECTION
"Can I trust AI accuracy?" (68%)

WHY NOW

LLM Cost & Speed
Running 50 parallel deep-dive interviews is now possible for <$5. A year ago, this cost $100+.

Agent Frameworks Maturity
Tools like LangChain and Convex allow complex, multi-turn interview logic that feels human.

Investor Scrutiny
The ZIRP era is over. Investors demand validation *before* code. We automate that proof.

Development Roadmap WE ARE ALL IN

- **Hackathon MVP**
  Working end-to-end engine + Dashboard
- **Month 1: Trust Features**
  Add "Verified by Human Expert" plugin to address trust objections
- **Month 3: B2B Integration**
  Jira/Linear integration for product teams
